

Department of Electrical and Computer Engineering
North South University

Senior Designing Project (CSE 499-A)

Project Topic:

Heart Failure risk prediction and visualization using Machine Learning algorithms and Artificial Neural Network.

Report: Data visualization and Correlation among attributes.

Submitted by:

Polin Rahman	ID # 1531377042
Md Iftehad Amjad Chy	ID # 1612547042
Ahmed Rifat	ID # 1620746042

Faculty Advisor:

Dr. Mohammad Monirujjaman Khan

Associate Professor

Department of ECE

Date: 02.01.2021

Table of Contents:

Dataset description:	2
Dataset Features:	2
Dataset's columns and null value:	3
Correlation Map (heatmap):	4
Data visualization:	4
Age factor Analysis:	5
Gender factor Analysis:	6
Diabetes factor Analysis:	6
Anemia factor Analysis:	7
HBP factor Analysis:	7
Smoking factor Analysis:	8
Other factors (Histogram Plots):	8
